The Ubuntu philosophy of "Humanity to others" and "I am what I am because of who we all are" are important to the Ubuntu community.

We are a worldwide community that prides itself on friendliness. **Unfortunately, some demographics in this wonderful community are struggling.**

The Ubuntu For All project aims to overcome barriers that, despite best efforts, still do exist in the Ubuntu Community.

Readers learn how they can dump Microsoft products and continue to be productive.

Includes full explanations of alternate operating systems, such as Linux and Mac, and outlines various software applications that can replace the familiar Microsoft products
