

I support and fully endorse the application of Randall Ross for official Ubuntu membership. As a member of the Vancouver Ubuntu Loco I have benefited from his hospitality and leadership. His leadership has enriched all of the loco members. I believe that Vancouver is a better place because of Randall's untiring commitment to spreading the good news of Ubuntu for all. I have experienced his leadership as being based on his knowledge of all things Ubuntu. He is visionary. He is innovative. He is passionate about Ubuntu. His vision, passion and innovation are exemplified for me in the "Helping Saturday Sessions" which has organized at Vancouver Community college for the past four months. These are open invitations to the public to come to discover Ubuntu, to come to get assistance in any aspect of Ubuntu and /or to come to get some problems solved. His team of volunteers are a true community; they are generous and competent. I have been a happy beneficiary of these gatherings. I have been introduced to the "Spirit of Ubuntu" which Randall models and coaches. From what I have seen, there is no better representative for Ubuntu. Yours truly, Peter Dawe
