

From Support Saturday, Treat Tuesday, Monthly meeting, and other meetup activity, I have to say your involvement and participation is astounding. I also acknowledge your participation in our recent ZDay at Zeitgeist Vancouver where you demo-ed Ubuntu for those in attendance and otherwise made yourself available for the whole day. This truly speaks to your integrity as buzz generator.

The level of community "animation" you bring to the group is perhaps what makes our Ubuntu Loco so dynamic. Your commitment and enthusiasm is contagious and I see it play out in others who must also feel inspired by you. You're fun to be around and an inspiration for this community.
